Intro to Snowflake for Devs,
Data Scientists, Data
Engineers

Introduction to Generative AI
with Snowflake

Building Generative AI Apps to
Talk to Your Data

Building AI Agents with
Snowflake

11-Sep-2026

Derren Winata

has successfully completed the online Professional Certificate

Snowflake Generative AI

Those who earn the Building AI Agents with Snowflake certificate have completed three courses that include hands-on exercises designed to prepare them for roles in AI application development and data engineering. They understand the differences between AI assistants and autonomous AI agents. They are competent in building semantic views for structured data queries, creating search services for unstructured text, and configuring agents that autonomously select tools to answer complex business questions. They have built complete AI agents for sales intelligence and customer service scenarios, written effective orchestration instructions, and integrated agents with external applications using Model Context Protocol.

Snowflake Northstar

Peter Olson, Vino
Duraismy, Josh Reini

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
